## Mission Six Service Dogs

<https://www.missionsix.org/>

We had a great time learning about Mission Six Service Dogs, we even got to see two of their dogs in action! The service Mission Six is providing our community is unparalleled. If you know anyone who is a service veteran and could benefit from their services, please connect them with the organization. They also welcomed any of us interested in adopting dogs who don't make it through their program to get in touch too! Thank you Ron and Diane for being a part of this community and supporting Veterans.

## Meet Bear Creek Organic Farm

Back in 2013, Anne Morningstar and Brian Bates launched Bear Creek Organic Farm. A farm business that was more dream than reality. 12 years later, the current version of Bear Creek Organic Farm has blown past all of their wildest dreams into the multi-facted, year-round, community-oriented business that it is today. From no kids and no employees to three kids and 30+ employees, Farmer Brian will take you along for a ride explaining how they got from there to here and all of the opportunities, challenges, and stories along the way.
